

3 August 2017

# Young Street Improvement Project

## Project Update

### Included in this notification:

- Temporary closure of Balmoral Street
- Station Street opening
- 3d art and entertainment on Station Street
- Concreting on the shop side
- Ongoing electrical and lighting works

**Please note: Over the next few weeks there will be more visible activity at night times than day times. This is due to the nature and location of the works and to maintain access to shop fronts.**

### Temporary closure of Balmoral Street

The next stage of works will see Balmoral Street closed to vehicles for a three week period starting from Thursday 3 August. During the closure period, access to Balmoral Street will be via Station Street. Traffic controllers and directional signage will be in place to direct pedestrians and vehicles.

Please see the map on the next page for more information on the closure and vehicle detours that will be in place. We will ensure pedestrian access to shops at all times throughout these works. Please follow the paths that are created to walk safely around our work zone.

### Station Street opening

The on street paving works at the Young Street and Station Street intersection are now complete. Station Street will be reopened on Thursday 3 August to vehicle traffic. Traffic will continue to be one-way on Young Street (northbound).

### 3d art installation and entertainment on Station Street

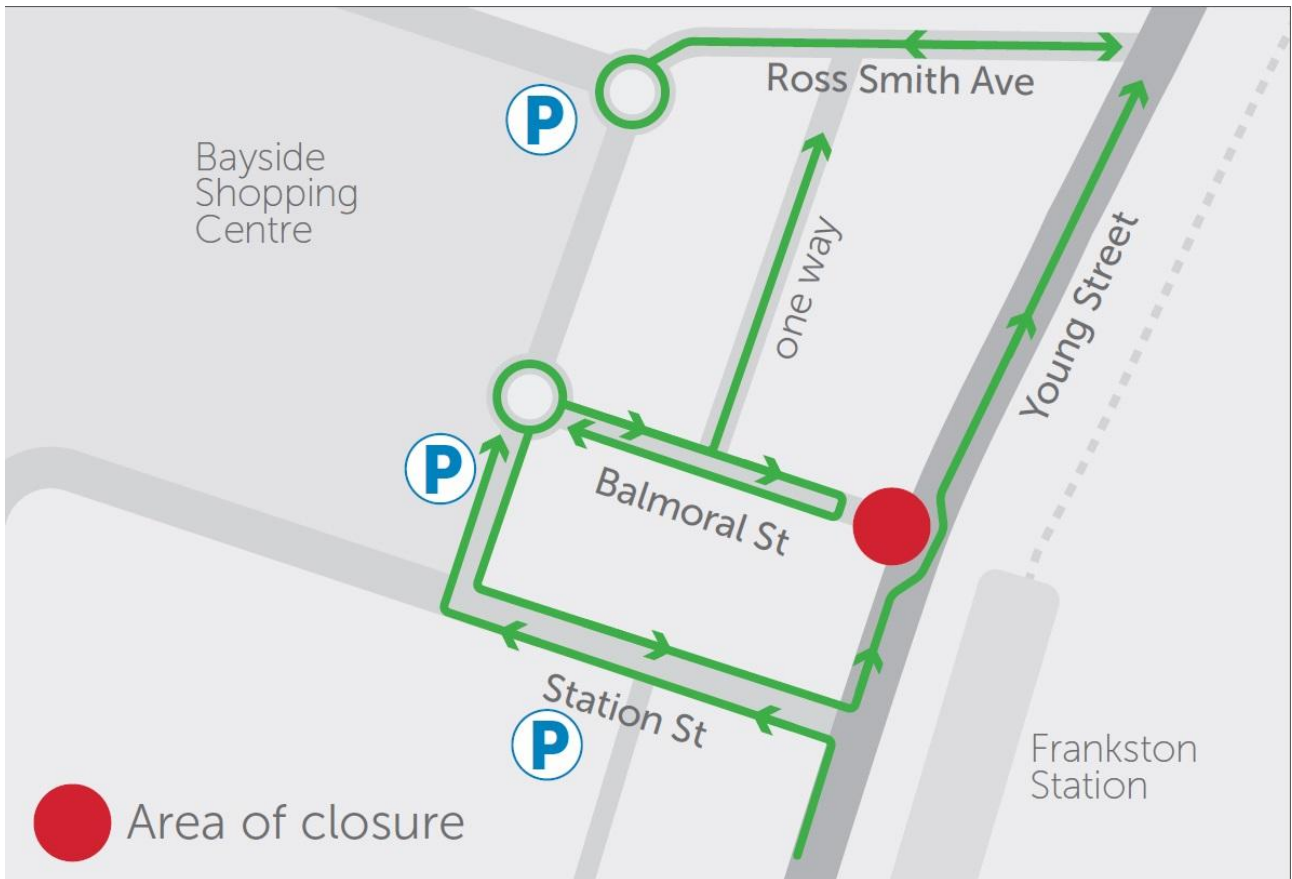

The re-opening of Station Street includes a 3d art installation on Station Street as part of the Frankston Business as Usual campaign. There will also be daily entertainment for a number of weeks. For more information visit [Facebook.com/frankstonbau](https://www.facebook.com/frankstonbau)

### Concreting on the shop side

On the shop side of Young Street we have started laying the concrete upon which the pavers will later be placed. We will ensure pedestrian access to shops at all times throughout these works. Please follow the paths that are created to walk safely around the work zone.

### Ongoing electrical and lighting works

Over the coming weeks you can expect to notice more changes with ongoing electrical and lighting works throughout the site. Light pole footings and conduits will continue to be installed.

Detours for the closure of the Young Street and Balmoral Street intersection.

### Contact us

We apologise for the inconvenience caused by this important work. If you wish to discuss any of the information above, or the Young Street Improvement project in general, please get in touch with us.

Open Monday – Friday, 10am – 3pm

The Young Street Improvement Project is one of several major redevelopment projects happening in Frankston City. Council is not managing these projects, however is committed to keeping residents informed about what's happening and how traffic will be affected. You can view a map of these works on [investfrankston.com](http://investfrankston.com) and details on Council's Notification of Works page.

The Victorian Government is funding the Young Street Improvement project as part of the \$63 million Frankston Station Precinct Redevelopment to create a safer environment for pedestrians, improve bus operations and provide better connection with the Frankston Station precinct and surrounding facilities.
